An inspirational and instructional Bible lesson about the life of Joseph the son of Jacob. This story is about the shaping of God's people and the developing of forgiveness, generosity, love, understanding, and leadership. Joseph, a type of Savior, sadly, but out of necessity, had to experience the full consequences of hatred and rejection from his jealous and cruel brothers. When Joseph saw the ten foreigners he recognized them instantly; a déjà-vu experience poignantly confronted him. Emotions engulfed his being as the profound dreams he had had as a young lad flooded back into his memory. The brothers didn't recognize him because in their minds Joseph existed only as a deep repressed memory. So Joseph kept his identity quiet and spoke officiously and suspiciously to them. The finest, most elegant and important projects from Jaya International Design are show-cased in this 312-page book featuring full-color images and enlightened text. Among the projects included are The Selai in Miami, FL; The Chedi Muscat in Oman; Cipicung in Java; The Legian, Bali Hotel & Club in Bali, and many others. The reader will learn how this has been accomplished by constantly and simultaneously focusing on both the big picture and small picture of each project. This title, *Hotel Paradises: From Urban to Tropical*, is an inspirational 'must-read' for those interested in innovative, practical and imaginative solutions to architectural design challenges in the hotel and restaurant fields.

The Breakers, the Waldorf, the Biltmore, the Sherry, the Pierre these landmark hotels are synonymous with grand luxury and style. When they were built, in the 1920s, their refined elegance and grandeur set the bar for hotels and resorts the world over. Responsible for creating these and countless other hotels throughout the United States, were the partners of a single architectural firm: Schultze & Weaver. Together, this duo an architect and an engineer virtually invented the glamorous lifestyle made famous in films like Grand Hotel. Catering to the social elite of which they were themselves a part, Schultze & Weaver synthesized the Old World style of Renaissance Italy, Moorish Spain, and Georgian England with all of the modern amenities that made hotel living luxurious. This book presents portfolios of fifteen of the firms most spectacular hotels, culminating in the Art Moderne masterpiece of the Waldorf-Astoria. Over two hundred period photographs and hand-colored architectural renderings chart the ascent of the American hotel in all its glory and glamour, before the Great Depression forever changed the lifestyles of America's rich and famous. Essays address the cultural and technological developments that underpin the creation of resort and residential hotels, including the elemental role played by Schultze & Weaver. This book is published in conjunction with an exhibition at the Wolfsonian-Florida International University, Miami, held in celebration of their tenth anniversary.

Founded in 2004 by partners Lyndon Neri and Rossana Hu, Neri&Hu Design and Research Office is an inter-disciplinary architectural design practice based in Shanghai,

China with an additional office in London, UK. Neri&Hu works internationally providing architecture, interior, master planning, graphic, and product design services. Currently working on projects in many countries, Neri&Hu is composed of multi-cultural staff who speak over 30 different languages. The diversity of the team reinforces a core vision for the practice: to respond to a global worldview incorporating overlapping design disciplines for a new paradigm in architecture. Neri&Hu's location is purposeful. With Shanghai considered a new global frontier, Neri&Hu is in the center of this contemporary chaos. The city's cultural, urban, and historic contexts function as a point of departure for the architectural explorations involved in every project. Because new sets of contemporary problems relating to buildings now extend beyond traditional architecture, the practice challenges traditional boundaries of architecture to include other complementary disciplines. Neri&Hu believes strongly in research as a design tool, as each project bears its unique set of contextual issues. A critical probing into the specificities of program, site, function, and history is essential to the creation of rigorous design work. Based on research, Neri&Hu desires to anchor its work on the dynamic interaction of experience, detail, material, form, and light rather than conforming to a formulaic style. The ultimate significance behind each project comes from how the built forms create meaning through their physical representations. In 2014, UK Wallpaper\* announced Mr. Neri and his partner Rossana Hu as 2014 Designer of The Year. In 2013, Mr. Neri was inducted into U.S. Interior Design Hall of Fame with partner Rossana Hu and was selected as AD 100 top talents in architecture and interior design by Architectural Digest China. The practice was selected as the 2011 INSIDE Festival Overall Winner, won AR Awards for Emerging Architecture 2010 by Architectural Review (UK) and one of the Design Vanguard in 2009 by Architectural Record (US). In 2006, Mr. Neri was selected by I.D. Magazine as one of the 40 designers globally who deserve more attention in the I.D. 40 . <http://enthepractice.neriandhu.com/content/philosophy>

This new monograph is the first book ever published on Neri&Hu. In a lavishly illustrated beautiful design concept it presents a selection of their work in architecture and product design. The content is structured in an introduction including also an essay on the topic of renovation, and three sections: Buildings, Products, and Projects. "Buildings" features seven renovation projects in Shanghai, complete refurbishments as well as interior redesigns. The projects include three retail spaces, Neri&Hu's own office building, a hotel, a restaurant, and a private home. "Products" presents tea ware, a chair and table, and a picnic basket. "Projects" documents ongoing and unrealized architectural work: a private residence in Florida (US), two hotel renovations projects in London and Shanghai, and a museum renovation in Kuala Lumpur. An overview on Neri&Hu's projects to date rounds out the book. The illustrative concept zooms from overview to detail: project documentations include with site plans, demolition plans and sections (i.e. showing demolished, and preserved parts of existing buildings as well as proposed additions) as well as detailed paving and furniture plans for interiors and details of selected products. Bars and restaurants need to be assertive. Customers tend not to visit them to satisfy basic appetites for food or drink but for the social opportunities. Their interiors need to occupy the imagination of their customers and to whet the appetite for a return visit. The design that gets the formula right will do as much to prolong the life of the business as the products on offer. As this book demonstrates, the conventions and mechanics of eating and drinking influence how bars and restaurants are conceived in different regions of the world. Whatever the final result users are in sustained, intimate contact with the elements of the space they inhabit and detailing must be refined enough, and visually rich enough, to withstand prolonged scrutiny. This book includes a wide range of international projects and for each one there is a descriptive text, colour

photographs, floor plans, sections and construction and decorative details. A bonus CD-ROM contains all the drawings as printed in the book, in both EPS and DWG (generic CAD) formats.

A behind-the-scenes look at the extraordinary and meticulous design of graphic objects for film sets Although graphic props such as invitations, letters, tickets, and packaging are rarely seen close-up by a cinema audience, they are designed in painstaking detail. Dublin-based designer Annie Atkins invites readers into the creative process behind her intricately designed, rigorously researched, and visually stunning graphic props. These objects may be given just a fleeting moment of screen time, but their authenticity is vital and their role is crucial: to nudge both the actors on set and the audience just that much further into the fictional world of the film.

For over 20 years, Kit Kemp has been at the forefront of the international design community, developing a signature style which mixes contemporary works of art by both well-known artists and unknowns -- all of whom paint with soul as much as skill -- with Kit's own furniture designs, antiques, and junk shop finds. All of this is set against a layered backdrop of luxurious fabrics, bespoke wallpapers and hand-finished detailing which creates instant impact. In *Design Thread*, Kit shares the inspiration behind her creative process: whether it's a house in the country or a city pied-à-terre, a hotel suite or beach bar, her unique eye for design shines through. Kit considers every element of her interiors in detail, each one treated as a work of art in its own right, with an emphasis on creating personal, authentic, handcrafted spaces which capture the imagination and stand the test of time. Alongside the stunning images of room sets and detailed close-ups, from her hotels to her private residences, there will be great insight into the inspirations behind Kit's work, including her design collaborations.

In recent years there has been a remarkable evolution in the design of hotels, with mainstream hotel chains rejecting characterless functionalism in favour of style-led individualism. This book gathers together over 40 of the best examples of hotel architecture and interiors from around the world, illustrating the impressive diversity of styles and forms. Identifying the latest industry trends, Riewoldt makes plain how both chains and independents have adopted individual design strategies to enhance their brand image in an increasingly global marketplace. Office design has changed significantly over the last few years and is now one of the most innovative areas of interior design. It used to be the case that only the public spaces of an office were creatively designed, but increasingly the staff areas are seen as key reflections of the company brand as well. In more radical offices, there is also a growing belief in the importance of work areas as social spaces and a blurring of the distinction between work and recreation. This book explores in detail 42 of the best recent office design schemes, featuring projects from leading architects around the world. Each project includes photographs as well as detailed drawings and plans, where appropriate, in addition to informative text describing the design concept and process. A bonus CD contains drawings featured in the book, in both eps and dwg (generic CAD) formats.
