Jackie Kendall's childhood was a horror story of abuse. A counselor deemed her family "one of the top-ten most dysfunctional in America." Family members have dealt with this trauma in different ways: Two siblings committed suicide. Some siblings ran wild. When Jackie decided that she wanted to break the mold and be a healthy, loving woman, to forgive or not to forgive was not a question. Simply put: one can't love freely without the developed skill of forgiving freely. In *FREE YOURSELF TO LOVE*, Jackie shares her own story and struggle to learn this vital life skill. She also reveals the reasons for--and results of --refusing to forgive. In passionate, empathetic prose, Jackie urges her readers to exchange free-floating bitterness for the freedom to love and be loved.

This handy resource offers an in-depth look at the substantive aspects of military justice and is designed to help both the experienced practitioner and the novice find his or her way through the punitive articles of the Uniform Code of Military Justice. It covers the myriad aspects of writing the charges and specifications, analyzing possible defenses, and possible instructions to the court members. Each punitive article is presented separately, followed by a detailed analysis and discussion. Coverage for each article focuses first on the official text of the article, then provides a discussion of the offense, including its history, what the prosecution must prove, applicable case law, and a discussion about possible defenses. For each article, the maximum punishment, possible lesser-included offenses, sample specifications, and sample instructions from the Military Judges' Benchbook are included. This guide also includes background on the military justice system, coverage of court-martial jurisdiction, and a chapter on defenses, for an all-in-one source on substantive military law.

Good vs. Evil – all Christians know the ultimate outcome of this perpetual struggle, but what about on a less cosmic level? What about our personal conflicts – urban violence, domestic violence, the daily challenge of making choices that are love motivated and honor God instead of being evil and self serving? This book follows a young urban couple, Samuel and Penny, as they try to honor their love for each other and Christ while confronting the attacks of an evil world. They are confronted by violence, greed, mayhem, hatred, prejudice, and revenge during an unusual courtship. But there's much that is unusual in this relationship. Penny's West Virginia heritage is not what you might expect, and Samuel has much to consider before he commits to a life-long relationship with her. His nominal Christianity is no match for the forces that confront him. There's much for him to learn, and discover. But he's not the only one with a quandary; Penny has to be very careful just who it is she marries. Not everyone can bear up under the weight of the legacy she is heir to, a legacy that is centuries old, dating back to the first human presence in the West Virginia

mountain country she calls home.

Markus Dubber retains the book's original aim to serve as an accessible companion to the Code. Professor Dubber unlocks the Model Penal Code's potential as a key to the study of American criminal law for law students and teachers, and for anyone else with an interest in understanding the basic contours of American criminal law. While the book's general goal and basic approach remain unchanged, its content has been thoroughly revised. Citations to primary and secondary materials have been updated and supplemented where appropriate. The American Law Institute's ongoing revision of the Code's sentencing and sexual offense provisions has been taken into account. Also, the comparative analysis found sporadically throughout the original edition has been expanded in places to provide additional context.
