First published in 1865, "The Celebrated Jumping Frog of Calaveras County" was Mark Twain's first real literary success and arguably launched his career as a writer. The story revolves around a tale the narrator once heard about a gambler named Jim Smiley who would bet on absolutely anything. An amusing tale of mistaken identity and a frog called Daniel Webster, "The Celebrated Jumping Frog of Calaveras County" is a must-read that will not disappoint fans of Twain's unique work. Samuel Langhorne Clemens (1835–1910), more commonly known under the pen name Mark Twain, was an American writer, lecturer, publisher and entrepreneur most famous for his novels "The Adventures of Tom Sawyer" (1876) and "The Adventures of Huckleberry Finn" (1884). Other notable works by this author include: "The Gilded Age: A Tale of Today" (1873) and "The Prince and the Pauper" (1881). Read & Co. Classics is proudly republishing this classic short story now in a new edition complete with a specially-commissioned biography of the author.

George A. Romero (b. 1940) has achieved a surprising longevity as director since his first film, Night of the Living Dead (1968). After recently relocating to Canada, he shows no signs of slowing up: his recent film, Survival of the Dead (2009), is discussed in a new interview conducted by Tony Williams for this volume, and still other films are awaiting release. Although commonly known as a director of zombie films, a genre he himself launched, Romero's films often transcend easy labels. His films are best understood as allegorical commentaries on American life that just happen to appropriate horror as a convenient vehicle. Romero's films encompass works as different as The Crazies, Hungry Wives, Knightriders, and Bruiser. The interviews in this collection cover a period of over forty years. In whatever format they originally appeared—the printed page, the internet, or the video interview—these discussions illustrate both the evolution of Romero's chosen forms of technology and the development of his thinking about the relationship between cinema and society. They present Romero as an independent director in every sense of the word.

What is knowledge? Where does it come from? What kinds of knowledge are there? Can we know anything at all? This lucid and engaging introduction grapples with these central questions in the theory of knowledge, offering a clear, non-partisan view of the main themes of epistemology. Both traditional issues and contemporary ideas are discussed in sixteen easily digestible chapters, each of which conclude with a useful summary of the main ideas discussed, study questions, annotated further reading and a guide to internet resources. Each chapter also features text boxes providing bite-sized summaries of key concepts and major philosophers, and clear and interesting examples are used throughout. The book concludes with an annotated guide to general introductions to epistemology, a glossary of key terms, and a summary of the main examples used in epistemology. This an ideal first textbook in the theory of knowledge for undergraduates coming to philosophy for the first time. The third edition has been revised and updated throughout and features two new chapters, on religious knowledge and scientific knowledge, as part of a whole new section on what kinds of knowledge there are. In addition, the text as a whole has been refreshed to keep it up to date with current developments.

"A lively and inspiring guidebook for anyone who wants to make the jump from normal to extraordinary." —Tony Robbins, #1 New York Times bestselling author of Unshakeable and MONEY: Master the Game An inspirational book that lays out the "Jump Curve"—four steps to wholeheartedly pursuing the career of your dreams—through experiences from a variety of people who have jumped and never looked back When Mike Lewis was twenty-four and working in a prestigious corporate job, he eagerly wanted to leave and pursue his dream of becoming a professional squash player. But he had questions: When is the right time to move from work that is comfortable to a career you have only dared to dream of? How have other people made such a jump? What did they feel when making that jump—and afterward? Mike sought guidance from others who had "jumped," and the responses he got—from a banker who started a brewery, a publicist who became a Bishop, a garbage collector who became a furniture designer, and on and on—were so clear-eyed and inspiring that Mike wanted to share what he had learned with others who might be helped by those stories. First, though, he started playing squash professionally. The right book at the right time, When to Jump offers more than forty heartening stories (from the founder of Bonobos, the author of The Big Short, the designer of the Lyft logo, the Humans of New York creator, and many more) and takeaways that will inspire, instruct, and reassure, including the ingenious four-phase Jump Curve.

The specialized jargon of some sports can be quite esoteric. Non-Americans, for example, are likely puzzled by baseball terms such as bunt, cut-off man, and safety squeeze, while the non-British may pause over cricket's Chinaman, doosra, golden duck, off-break, popping crease, and yorker. This new dictionary gives the definitions of more than 8,000 terms used in sports and games from around the world, including mainstream sports like basketball and billiards alongside the more obscure netball and snooker. Entries cover sports equipment, strategies, venues, qualifying categories, awards, and administrative bodies, while a comprehensive system of cross-references offers assistance and clarification when needed. An appendix lists standard abbreviations of sports ruling bodies and administrative organizations.

Moon Mullen was an integral member of George Halas's old Chicago Bears. Verl Lillywhite played on the mid-century San Francisco 49ers, integrating the pro football roommates' tradition by bunking with Joe "The Jet" Perry. Rodeo star Chuck Roberson doubled for John Wayne when the stunt work got dicey. Jay Carty played on the Los Angeles Lakers with Jerry West. George Culver tossed a no-hitter for the Cincinnati Reds. What these former athletes and others profiled in this collection have in common is Kern County, California, and the good fortune to have had Bryce Martin covering their careers. With decades of experience writing for top publications, former St. Louis Cardinals prospect Martin offers a collection of profiles that forms a veritable Kern County sports hall of fame.
