

Icar Previous Years Question Papers File Type

ICAR All India Entrance Exam (AIEE) is officially conducted by NTA to select candidates for admission in the various undergraduate courses. Earlier it was conducted by ICAR, hence the name but this year National Testing Agency (NTA) is likely to conduct the exam. ICAR AIEEA is accepted by many prominent colleges across the country to absorb aspirants in the field of agriculture, horticulture, and other engineering courses. It is conducted offline and carried out as a written exam with objective questions of Physics, Chemistry, Mathematics, Biology, and Agriculture. After qualifying the written exam, shortlisted students must appear for a counseling session to seek admission thereof. Here you'll come across a swarm of ICAR mock tests to practice more.

The idea of the book entitled "Objective Life Science: MCQs for Life Science Examination" was born because of the lack of any comprehensive book covering all the aspects of various entry level life science competitive examinations in particular conducted by CSIR, DBT, ICAR, ICMR, ASRB, IARI, State and National Eligibility Test, but not limited to. This book, covers all the subjects of life science under 13 section namely, 1. Molecules and their interaction relevant to biology; 2. Cellular organization; 3. Fundamental processes; 4. Cell communication and cell signaling; 5. Developmental biology; 6. System physiology – Plant; 7. System physiology – Animal; 8. Inheritance biology; 9. Diversity of life forms; 10. Ecological principles; 11. Evolution and behavior; 12. Applied biology and 13. Methods in biology. Each Section has been further divided into two parts with 200 short tricky questions and 100 applied conceptual questions. Besides this, it also consist of ten full-length model practice test paper, each of 145 questions based on recent syllabus and examination pattern of CISR-UGC National Eligibility Test for Junior research fellowship and lecturership. Additional previous years solved question papers of the CSIR-UGC NET are also included to get acquainted with India's most competitive entry level exam. The ultimate purpose of this book is to equip the reader with brainstorming challenges and solution for life science and applied aspect examinations. It contains predigested information on all the academic subject of life science for good understanding, assimilation, self-evaluation, and reproducibility. The book is a compilation work and questions are substantially acquired from different competitive exams. A wide coverage of entire subject divided into nine chapters viz. Introduction to Agricultural Extension, Agricultural Communication, Media and Information Technology, Programme, Planning and Rural Development in Agriculture, Management in Agricultural Extension, Training and Research Methodology, Adult Education, Rural Sociology and Educational Psychology, Entrepreneurial Development and Elementary Statistics. This book consists of chapter-wise objective type questions like Multiple Choice, Fill in the Blanks and Mark True or False will enable the readers to update their knowledge quickly. Glossary are given at the end for ready reference. This book would be very useful for those appearing for various competitive examination, like post-graduate, SAUs Entrance, Ph.D. JRF, ARS, ICAR- NET, SET, Agricultural Officer, Bank (PO) (Agriculture), ADO and Allied Agricultural Examinations conducted by different agencies.

Written in easy to follow language, the book presents cutting-edge agriculturally relevant plant biotechnologies and applications in a manner that is accessible to all. This book introduces the scope and method of plant biotechnologies and molecular breeding within the context of environmental analysis and assessment, a diminishing supply of productive arable land, scarce water resources and climate change. Authors who have studied how agro ecosystems have changed during the first decade and a half of commercial deployment review effects and stress needs that must be considered to make these tools sustainable.

In all the developing countries, the vast natural resource have great potentials for the production of fish. Natural water resource are categorized on the basis of altitude, temperature and salinity. The different fish species have adopted as per water ecosystem. Out of identified about 22000 fish species, only 10% belongs to freshwater. Only 107 species have been found suitable as culturable. Hence, major chunk of fish are not cultured by man but used by him as food or other uses. It is therefore, the natural fisheries is very important for human being and proper management and legislation are needed to have the sustainable production. The text of the book is written in simple language so as understandable by scientists, extension workers, students and farmers. References and literature for further reading have been given in the end. Note: T&F does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

Plant Biotechnology presents a balanced, objective exploration of the technology behind genetic manipulation, and its application to the growth and cultivation of plants. The book describes the techniques underpinning genetic manipulation and makes extensive use of case studies to illustrate how this influential tool is used in practice.
