Language learning research aims to describe and fully explain how and why language learning takes place, but can fall short of its stated purpose. Systematic, rigorous research is needed if the growing field of language learning is to progress methodically. This book demonstrates and fully explains such a methodology. Given that research in language acquisition yields practical pedagogical implications, it is crucial that it is rigorous and accurate. This book offers a quantitative research methodology that relies on statistical analysis in order to make inferences and conclusions about language learning. Experimental research aims to understand differences between or within groups of learners under manipulated environments. It requires strict control of conditions, enabling interpretations with a low factor of error. Aek Phakiti provides step-by-step guidelines and underlying principles, epistemology and methodology, in a book that is essential for advanced students of language acquisition and language and education.

----- A lost starship... A dire warning from futures past... A desperate search for salvation...

----- Captain Mitchell "Ares" Williams is a Space Marine and the hero of the Battle for Liberty, whose Shot Heard 'Round the Universe saved the planet from a nearly unstoppable war machine. He's handsome, charismatic, and the perfect poster boy to help the military drive enlistment. Pulled from the war and thrown into the spotlight, he's as efficient at charming the media and bedding beautiful celebrities as he was at shooting down enemy starfighters. After an assassination attempt leaves Mitchell critically wounded, he begins to suffer from strange hallucinations that carry a chilling and oddly familiar warning: They are coming. Find the Goliath or humankind will be destroyed. Convinced that the visions are a side-effect of his injuries, he tries to ignore them, only to learn that he may not be as crazy as he thinks. The enemy is real and closer than he imagined, and they'll do whatever it takes to prevent him from rediscovering the centuries lost starship. Narrowly escaping capture, out of time and out of air, Mitchell lands at the mercy of the Riggers - a ragtag crew of former commandos who patrol the lawless outer reaches of the galaxy. Guided by a captain with a reputation for cold-blooded murder, they're dangerous, immoral, and possibly insane. They may also be humanity's last hope for survival in a war that has raged beyond eternity.

Wedding season has arrived in New York Times bestselling author Mary Alice Monroe's fourth novel in the "distinct, complex, and endearing" (Charleston Magazine) Lowcountry Summer series, set against the romantic, charming Carolina lowcountry. Nothing could be more enchanting than a summer wedding—or two!—in storied Sullivan's Island. A centuries-old plantation, an avenue of ancient oaks dripping moss, a sand dune at sunset... it's all picture perfect, and half-sisters Dora, Carson, and Harper, and their grandmother Marietta "Mamaw" Muir couldn't be more excited. Wedding dresses are picked, venues booked, and delectable cakes tasted. What could possibly go wrong? The answer, the Muir clan is soon to find out, is everything. Carson loves Blake, but struggles with giving up her independence. Harper questions if a prenuptial agreement will help or hurt the future of her marriage, and a newly unfettered Dora is uncertain whether she really wants to walk down the aisle again. Just when it seems things couldn't get more complicated for the Muir sisters, a stranger arrives bearing a long-held family secret that has the potential to upset even the most carefully laid-out wedding plans. With the weddings mere weeks away, the invitations sent out, and the family in tumult, Mamaw and her Summer Girls discover the enduring and powerful bonds of family, and realize that, no matter how different each bride might be, she can still have her perfect wedding.

What has Jung to do with the Postmodern? Chris Hauke's lively and provocative book, puts the case that Jung's psychology constitutes a critique of modernity that brings it in line with many aspects of the postmodern critique of contemporary culture. The metaphor he uses is one in which 'we are gazing through a Jungian transparency or filter being held up against the postmodern while, from the other side, we are also able to look through a transparency or filter of the postmodern to gaze at Jung. From either direction there will be a new and surprising vision.' Setting Jung against a range of postmodern thinkers, Hauke recontextualizes Jung's thought as a response to modernity, placing it - sometimes in parallel and sometimes in contrast to - various postmodern discourses. Including chapters on themes such as meaning, knowledge and power, the contribution of architectural criticism to the postmodern debate, Nietzsche's perspective theory of affect and Jung's complex theory, representation and symbolization, constructivism and pluralism, this is a book which will find a ready audience in academy and profession alike.

This book is concerned with the structure of linear semigroups, that is, subsemigroups of the multiplicative semigroup $M_n(K)$ of $n \times n$ matrices over a field K (or, more generally, skew linear semigroups — if K is allowed to be a division ring) and its applications to certain problems on associative algebras, semigroups and linear representations. It is motivated by several recent developments in the area of linear semigroups and their applications. It summarizes the state of knowledge in this area, presenting the results for the first time in a unified form. The book's point of departure is a structure theorem, which allows the use of powerful techniques of linear groups. Certain aspects of a combinatorial nature, connections with the theory of linear representations and applications to various problems on associative algebras are also discussed.

This early work by Wilkie Collins was originally published in 1857. Born in Marylebone, London in 1824, Collins' family enrolled him at the Maida Hill Academy in 1835, but then took him to France and Italy with them between 1836 and 1838. Returning to England, Collins attended Cole's boarding school, and completed his education in 1841, after which he was apprenticed to the tea merchants Antrobus & Co. in the Strand. In 1846, Collins became a law student at Lincoln's Inn, and was called to the bar in 1851, although he never practiced. It was in 1848, a year after the death of his father, that he published his first book, *The Memoirs of the Life of William Collins, Esq., R.A.*, to good reviews.

The 1860s saw Collins' creative high-point, and it was during this decade that he achieved fame and critical acclaim, with his four major novels, *The Woman in White* (1860), *No Name* (1862), *Armadale* (1866) and *The Moonstone* (1868). *The Moonstone*, meanwhile is seen by many as the first true detective novel — T. S. Eliot called it "the first, the longest, and the best of modern English detective novels...in a genre invented by Collins and not by Poe." Many of the earliest books, particularly those dating back to the 1900's and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions.

In this pioneering work of cultural history, historian Anthony Harkins argues that the hillbilly-in his various guises of "briar hopper," "brush

ape," "ridge runner," and "white trash"-has been viewed by mainstream Americans simultaneously as a violent degenerate who threatens the modern order and as a keeper of traditional values of family, home, and physical production, and thus symbolic of a nostalgic past free of the problems of contemporary life. "Hillbilly" signifies both rugged individualism and stubborn backwardness, strong family and kin networks but also inbreeding and bloody feuds. Spanning film, literature, and the entire expanse of American popular culture, from D. W. Griffith to hillbilly music to the Internet, Harkins illustrates how the image of the hillbilly has consistently served as both a marker of social derision and regional pride. He traces the corresponding changes in representations of the hillbilly from late-nineteenth century America, through the great Depression, the mass migrations of Southern Appalachians in the 1940s and 1950s, the War on Poverty in the mid 1960s, and to the present day. Harkins also argues that images of hillbillies have played a critical role in the construction of whiteness and modernity in twentieth century America. Richly illustrated with dozens of photographs, drawings, and film and television stills, this unique book stands as a testament to the enduring place of the hillbilly in the American imagination. Hillbilly received an Honorable Mention, John G. Cawelti Book Award of the American Culture Association.

'This book is a major contribution to culture and to the psychoanalytic literature. The authors explore how animals, both wild and domesticated, have powerful symbolic meanings in our psyches, mythology, religion, literature, art, music, and popular culture. From the prehistoric art of Lascaux to Picasso, from The Fly to the American eagle, the psychoanalytic perceptions are subtle and suggestive, the aesthetic, film, and national insights are a delight.'-Peter Loewenberg, Dean, Southern California Psychoanalytic Institute, Professor of History and Political Psychology, UCLA'Our cousins - the animals - swarm, creep, fly, swim, and crawl all about us, even sharing our houses and infesting our bodies. We hunt them, breed, them, clothe ourselves with them, and eat them for dinner (as they sometimes do to us). They populate our literature, myths, religions, arts, our language and its metaphors, and they haunt our unconscious fantasies and our dreams. Charles Hodge engaged the leading thinkers of his day to defend the human ability to know God. This involved him in affirming the importance of both orthodoxy and piety in the life of a Christian. His work involved expanding on the insights of the Westminster Confession of Faith as it applied to the theory of salvation and the role of Christ.

Safety Glazing Standards (US Federal Railroad Administration Regulation) (FRA) (2018 Edition) The Law Library presents the complete text of the Safety Glazing Standards (US Federal Railroad Administration Regulation) (FRA) (2018 Edition). Updated as of May 29, 2018 In this final rule, FRA is revising and clarifying existing regulations related to the use of glazing materials in the windows of locomotives, passenger cars, and cabooses. This final rule reduces paperwork and other economic burdens on the rail industry by removing a stenciling requirement for locomotives, passenger cars, and cabooses that are required to be equipped with glazing. This final rule also clarifies the application of the regulations to older equipment and to the end locations of all equipment to provide more certainty to the rail industry and more narrowly address FRA's safety concerns. In addition, this final rule clarifies the definition of passenger car, updates the rule by removing certain compliance dates that are no longer necessary, and, in response to comments on the proposed rule, modifies the application of the regulations to passenger cars and cabooses in a railroad's fleet that are used only for private transportation purposes and to older locomotives used in incidental freight service. Passenger Train Emergency Preparedness (US Federal Railroad Administration Regulation) (FRA) (2018 Edition) The Law Library presents the complete text of the Passenger Train Emergency Preparedness (US Federal Railroad Administration Regulation) (FRA) (2018 Edition). Updated as of May 29, 2018 FRA is amending its existing regulation entitled Passenger Train Emergency Preparedness by revising or clarifying various provisions. The final rule clarifies that railroad personnel who communicate or coordinate with first responders during emergency situations must receive certain initial and periodic training and be subject to operational tests and inspections related to the railroad's emergency preparedness plan. The final rule also clarifies that railroads must develop procedures in their emergency preparedness plans that specifically address the safety of passengers with disabilities during actual and simulated emergency situations, such as during train evacuations. The rule also limits the need for FRA to formally approve certain purely administrative changes to approved emergency preparedness plans. In addition, the final rule requires that operational tests and inspections be conducted in accordance with a program that meets certain minimum requirements. Finally, the rule removes as unnecessary the provision discussing the preemptive effect of the regulations.
